ALPS OutdoorZ Alpha Dog Blind

■ Providing Comfort and Concealment for Hunting Dogs

NEW HAVEN, Mo. – ALPS OutdoorZ proudly brings the Alpha Dog Blind to their fall waterfowl line up. The Alpha Dog Blind provides your favorite hunting companion the comfort and concealment needed for a full day's hunt in the harshest conditions.

The Alpha Dog Blind features a unique aluminum hub design with engineered tips and pins which offers quick and easy set-up in seconds. A tapered roof peak allows an unobstructed line of sight for your dog while keeping him concealed. Constructed of durable Realtree Max-5 600D polyester fabric with black-out backing, the triangular shape of the Alpha Dog Blind provides ultimate concealment from all angles. Meanwhile, the padded 900D polyester fabric floor provides durability and comfort for your partner. Magnetic dual-swing front doors and a dual-swing rear door with buckle closure provide quick and easy exit/entry options for retrievers. A paracord handle and included shoulder carry bag make for easy transport to and from the field. Stakes are included to keep the blind secure. With the addition of the Alpha Dog Blind to your hunting arsenal, your favorite hunting companion will get to experience the excellence and quality you have come to expect.

ALPS OutdoorZ Product Manager Zach Scheidegger says, "We are really excited about the new Alpha Dog Blind. With its unique and quick-access design, we feel this is the most versatile and effective dog blind on the market."
