ALPS OutdoorZ Announces Bino Harness X, New Product for Extreme Line 2016

New Haven, MO – When it was time to design and manufacture the best packs on the market, ALPS OutdoorZ didn't take the challenge lightly. Using premium materials and components, extremely adjustable and comfortable suspension systems, and design features that support a variety of hunting activities, the Extreme line of premium hunting packs burst onto the scene in 2015.

"After successfully launching our new line of premium Extreme hunting packs to some very positive feedback, we knew we couldn't stop there," explained Zach Scheidegger, ALPS OutdoorZ product manager. "The new products that we are introducing to the Extreme line this year really expand upon what makes the Extreme line such a fantastic group of hunting packs."

Coming off the heels of the successful launch of the Extreme line of premium hunting packs, ALPS OutdoorZ looked to continue to innovate and expand into new product categories. Bringing their signature brand of quality designs and features to the first expansion of the Extreme line, ALPS OutdoorZ proudly announces a brand new Extreme product for 2016; the **Bino Harness X**.

The Bino Harness X is a premium style binocular harness designed with the hardcore hunter in mind. Featuring a 6.5" x 5.5" x 2.25" pocket that stays close to the chest, you can be assured that the Bino Harness X won't bounce or shift with your body movement. The back panel is padded for extra comfort, and the harness is fully adjustable to fit all body sizes. The straps have been specifically designed to fit comfortably underneath your pack straps, allowing you to wear the Bino Harness X comfortably with or without your pack. The Bino Harness X is tough, and features the same 1680D Nylon Ballistic material fabric found in all of the Extreme line of products to insure extra durability in even the harshest environments. The closure mechanism on the main compartment is adjustable to allow for a variety of binocular sizes, and the binocular attachment straps are metal free to prevent any unnecessary wear on your binocular's attachment points. The Bino Harness X features four total lashing points to allow for any extra accessories of your choice to be added on. A lens cloth is included.

The Extreme line of packs aren't only practical, durable, and aesthetically appealing, but they've been used and abused by hunters in regions all across the US to ensure that they really are the best choice on the market. About ALPS OutdoorZ

ALPS OutdoorZ is part of ALPS Brands, which started with ALPS Mountaineering in 1993, with the mission of providing quality, high performance, and affordable gear for backpackers and campers. ALPS Mountaineering designs and markets tents, sleeping bags, air pads, packs, camp furniture, and other outdoor accessories. ALPS OutdoorZ was started in 2007 when the company extended their knowledge gained from designing quality backpacking and camping gear to market and design camouflaged gear for hunters, such as packs, blind chairs and camp furniture, sleeping bags, and gun cases. ALPS OutdoorZ items are sold and distributed in the best camping, backpacking, and outdoor dealers throughout the entire US and Canada. For more information, please visit www.alpsoutdoorz.com.
