ALPS OutdoorZ Announces Upland Game Vest X, New Product for Extreme Line 2016

New Haven, MO - When it was time to design and manufacture the best packs on the market, ALPS OutdoorZ didn't take the challenge lightly. Using premium materials and components, extremely adjustable and comfortable suspension systems, and design features that support a variety of hunting activities, the Extreme line of premium hunting packs burst onto the scene in 2015.

"After successfully launching our new line of premium Extreme hunting packs to some very positive feedback, we knew we couldn't stop there," explained Zach Scheidegger, ALPS OutdoorZ product manager. "The new products that we are introducing to the Extreme line this year really expand upon what makes the Extreme line such a fantastic group of hunting packs."

Coming off the heels of the successful launch of the Extreme line of premium hunting packs, ALPS OutdoorZ looked to continue to innovate and expand into new product categories. Bringing their signature brand of quality designs and features to the first expansion of the Extreme line, ALPS OutdoorZ proudly announces a brand new Extreme product for 2016; the **Upland Game Vest X**.

The Upland Game Vest X is exactly what its name implies; a vest with innovative features suited perfectly to upland bird hunting. The vest features ultrathin, shooter friendly shoulder straps for maximum shooting comfort. The lightweight vented back and waist belt ensure that you won't overheat while in the field. The vest is H2O compatible, and even includes a water bottle pocket on each side for additional hydration capacity. The vest has no shortage of pockets, including a large rear organizational pocket, two extra gear pockets, two remote pockets (perfect for dog electronics), two front shell pockets that fit a full box of shells each, and one large wrap around game pocket that can unzip for easy cleaning. Two state-of-the-art, flip down gun rests are also incorporated into the design, and give you a place to rest the butt of your gun when you stop to take a rest. The vest is blaze orange in color to ensure that you are highly visible to those hunting around you.

The Extreme line of packs aren't only practical, durable, and aesthetically appealing, but they've been used and abused by hunters in regions all across the US to ensure that they really are the best choice on the market.
