## ALPS OutdoorZ Day Pack Designed for Women Hunters

■ ALPS OutdoorZ has a woman-specific day pack called the Huntress, which is ideal for deer hunting. There wasn't a feature missed by the design team to meet the needs of every sportswoman going out this fall.

The Huntress is designed to fit a woman's frame—including contours and a smaller harness and waistbelt. The pack still includes all of the features that a hunter would expect from an ALPS OutdoorZ pack. A drop-down weapon pocket can accommodate a bow or rifle/shotgun, and multiple organizational pockets maximize storage space. The brushed Realtree Xtra fabric and removable blaze orange rain cover ensure that hunters are concealed or visible as needed. The 2,200 cubic inches of space allow for plenty of storage, and lashing straps are also included, so more gear can be strapped on as needed.

"The Huntress is my pack of choice for deer season," says Sarah Brune, ALPS Marketing Manager. "It's the perfect size, and fits my body comfortably for the long walks to the stand. I'm also able to carry my bow/rifle securely, which is convenient for those dark mornings."
