ALPS OutdoorZ Hybrid X

NEW HAVEN, Mo. - The Hybrid X is a western-inspired pack, offering all the conveniences of a day pack while providing the functionality of a meat hauler.

The Hybrid X combines an internal frame meat hauler with a detachable 2,750-cubic-inch top-load pack that offers the ability to carry essentials and haul meat out after a successful hunt. The pack easily attaches- or- detaches from dual-aluminum frame by a series of compression straps. The frame also features a shelf and compressed wing-style pockets to accommodate small or large hauls.

The Hybrid X offers unmatched strength and durability in the field with 1860D Nylon Ballistic and Robic Nylon fabrics with hyaplon reinforced construction. A molded-foam suspension system and Lycra shoulder straps provide comfort and stability on the most unforgiving terrain. The pack features a drop-down stock pocket for ease of rifle or shotgun carry. The waist belt provides additional pockets and accommodates a clip-style holster for sidearms. The front pocket opens directly into the main compartment, allowing easy access to gear and essentials. External lash points make it possible to easily secure gear to the outside of the pack. An integrated hydration pocket and port are included in the design for easy water access. It also features a rain cover for when weather is less than favorable.
