ALPS OutdoorZ Introduces the Transporter, a Waterproof Smartphone Accessory

■ ALPS OutdoorZ has the perfect pack accessory for the outdoorsman/outdoorswoman who wants to keep all their gear dry yet easy to reach. The Transporter is a small accessory that will have a big impact.

The Transporter—with an IPX7 waterproof rating—is a protective case for carrying cellphones and smartphones in all terrains. It features a universal waterproof/dustproof design that fits most popular phone models that are up to 6.2 inches by 3 inches in size. The clear, soft TPU material provides complete waterproof protection, and it also allows for full touch screen functionality. An adjustable SR buckle accommodates a variety of attachment options.

“Hunters use their phones as tools—for maps and GPS services, for example—or to simply stay in touch, and we need to keep these valuable devices protected from the elements,” says Zach Scheidegger, Product Manager.
