

ALPS OutdoorZ Announces New Triad 360-Degree Swivel Stool

NEW HAVEN, Mo. – No matter how well-laid our plans, deer always seem to do the unexpected. Now you can be prepared for the shot no matter how or from where a deer approaches your stand thanks to the new Triad 360 Swivel stool from ALPS OutdoorZ.

The Triad is a true all-terrain hunting seat that is perfect for ground blind hunting or for setting up an impromptu stand along a field edge or other quick ambush point. Built on a rugged powder-coated steel frame, the Triad features legs with independent height adjustment to provide a level seat on uneven terrain. What's more, a large swivel foot at the bottom of each leg adds stability to the stool and prevents the legs from sinking into the soil.

For all-day sitting comfort and to eliminate back strain, the Triad boasts an extra-large padded seat and angled back for cramp-free support. The Triad weighs in at a surprisingly light 8 lbs. 10 oz., and is built to support up to 300 lbs. A shoulder bag is included to provide convenient field transportation.
