## **ALPS Outdoors Introduces New External Frame Freighter: Trophy X**

**NEW HAVEN, Mo.** – ALPS OutdoorZ is proud to announce the addition of the Trophy X to its ever-expanding Extreme line. The external frame freighter will be available in 2018.

From the same team that brought you the tough and rugged Commander X, the Trophy X is a long-anticipated addition to the Extreme Pack line. From concept to reality, the Trophy X has evolved into an elite backcountry freighter frame pack. “The Trophy X combines the unmatched comfort of molded foam suspension with the strength and weight distribution of an external frame pack for the best of both worlds,” says Zach Scheidegger, ALPS OutdoorZ Product Manager. “You won’t find a better meat hauling freighter frame on the market.”

The Trophy X features a powder-coated aluminum frame with a freighter shelf to support extra-heavy loads. A roll-out lashing system is readily available to secure meat, and adjustable molded foam suspension and Lycra shoulder straps with load lifters provide superior comfort and stability on long hauls. In addition to the adjustable shoulder straps and waist belt, the Trophy X boasts an adjustable torso range for individualized comfort. The molded foam waist belt includes extra storage pockets and accommodates clip-style holsters. And like every pack in the Extreme line, the Trophy X is constructed of heavy duty Robic Nylon fabric with hypalon reinforcement at high stress points for unmatched strength and durability.

The Trophy X is your go to backcountry freighter frame pack –ready for any challenge. It’s been used and abused by hunters in regions all across the US to ensure that it will stand up to any challenge you throw its way.
